

Case Study

Slip Incident Mooroolbark Urban Fire Station

Someone had painted the kerbs with paint to identify a potential hazard.
The problem was that the painted surface had become a dangerous slip hazard,
A couple of Firefighters slipped on the painted surface and sustained a serious injuries.

AWIS was consulted and suggested using AWIS Preform on the top of the painted Kerbs.
AWIS Preform is available in many colours and contains a 70/30 Grit bead mix.
This 70/30 mix provides anti skid and retro reflectivity of a night.

AWIS Preform is fully approved for use on trafficable area's.

A speed hump the paint has degraded new Anti Skid AWIS Preform installed

AWIS Preform Treatment of kerbs
