Case Study

Educational Package for Schools, kindergarten and Playgrounds

Kindergarten Teachers, Primary School Teachers and Teachers Aids spend many hours marking out Hopscotch, Bike tracks and numerous other shapes, letters and numbers on hard standing area's for learning and teaching aids.

Due to the limited durability of chalk and crayon the work is only short lived and it has to be re done on a regular basis.

Many Pre Schools had this problem and the preparation time is getting more costly and time consuming AWIS spoke to the Teachers and offered to supply our Educational Package to the hard wearing area of the Kindergarten.

The Educational Package is a variety of shapes, Letters and Numbers of various size and colour along with various types of Ball games on courts, Adventure trails, Hop Scotch and Bike Tracks

As AWIS Preform is the manufacture we can, within reason provide a wide variety of Shapes, Numbers, Letters, symbols and Logo's to your specifications.
