

**HI-VIS DOUBLE SHOT WRENCHES  
TO SUIT M16 AND M20 NUTS AND BOLTS**

**HI-VIS  
DOUBLE SHOT  
WRENCH**

**STANDS OUT ON THE JOB.**

- Designed specifically for pipeline, utility, maintenance, and construction workers.
- Florescent orange sockets make the wrenches harder to lose, easier to find.
- Based on Lowell's field-proven ratchet technology.
- Switch located in head reverses action safely and conveniently.
- Heavy duty stamped, riveted handle; sockets made of rugged cast metal. Both are coated with electrostatic epoxy paint for durability and easy cleaning.
- Six socket size combinations for heavy hex nuts, standard hex nuts, and hydrant repair.
- Bolt-Thru design lets bolts pass entirely through sockets and arm head so nuts can be secured on any threaded length.
- Each wrench is 12 inches long and weighs two pounds.
- Vinyl grip makes working comfortable and secure.
- Guaranteed against defects in material and workmanship for one year from delivery date.
- 100% made in USA.

*Double Shot wrenches provide greater flexibility in dealing with the most common nut sizes that fasten mechanical joints, repair clamps, sleeves, service saddles, tapping sleeves, flange bolts, couplings, and hydrants.*

Model	Hex Size	Application
DS-7	24mm & 30mm	Gas & Water Industry Couplings, repair clamps service saddles flange bolts
